Background

SkillCheck, Inc. is the world's technology leader in performance-based and knowledge-based skills testing via the PC, LAN and Internet.

SkillCheck assessment products and services are used by the world's top staffing services, corporate HR offices, training organizations and schools. SkillCheck, Inc. has been providing quality testing products since 1988.

Only SkillCheck offers:

- Performance-based assessments on all of the top software products.
- Hundreds of testing products in all areas of clerical and professional skills.
- Unique test-creation capability that allows test administrators to create tests that contain performance-based and knowledge-based questions.

SkillCheck's Product line includes tests covering a wide range of skills and jobs.

Product Catalogue

SoftwareSkills

SoftwareSkills delivers fast, effective skills testing on virtually all of today's top office software. Test knowledge of Microsoft Office, Lotus SmartSuite, WordPerfect and more, using SkillCheck's state-of-the-art software simulations.

CallCenter

Test on customer service skills using real-world simulations of a call center representative interacting with clients. This unique, adaptive test provides a detailed assessment of applicants in the shortest amount of time! Includes tests on call center knowledge and skills including Telephone Skills, Sales Skills, Data Analysis and Coding.

ITSkills

ITSkills let you assess job candidates quickly and easily with programming and IT tests that work. While other IT skills testing products are limited to multiple-choice and other limited types of test questions, only ITSkills provides real-world code-manipulating environments to test a candidate's programming and IT skill.

Typing/Data Entry

Speed and accuracy in typing, data entry, audio transcription and audio data entry are crucial in many office situations. Rate audio typing and data entry skills quickly and easily with SkillCheck's powerful and flexible Audio Transcription, Shorthand and Audio Data Entry Tests!

Digital and Internet Literacy

The SkillCheck DigitalLiteracy package is perfect for assessing basic understanding of all aspects of computing and the Internet, including hardware, software, networks, electronic mail, browsing the Web and more!

ClericalOffice

SkillCheck offers the widest variety of standard and customizable assessments covering important office and clerical skills.

TalentScout

TalentScout uses Computer-Adaptive Testing and other advanced testing technologies to test all of the skills required for a specific job in a fraction of the time it takes for traditional testing. You can cut your testing time in half while getting better analysis and reporting.

TestMaker

The TestMaker allows you to meet almost any testing need by creating multiple-choice, true-false and fill-in-the-blank tests of any length, on any subject, including questions with text or graphics.

EDU

For teachers or trainers who need to provide powerful, reliable, flexible testing in a secure environment, EDU Testing System is the perfect all-in-one PC and network testing solution.
